Custom Training Seminars***

Investigative Methodology

The professional criminal defense and due process investigator must seek the training and education necessary to elevate their understanding and ability to defend due process and the sixth amendment of the United States Constitution. The CDITC is dedicated to developing the most comprehensive training and certification programs available.

Criminal Defense Investigation Training

Our Philosophy is one that promotes the criminal investigator as an "Impartial & Objective Advocate of the Truth." CDITC training combines ethical and objective inquiry with the methodology necessary to develop a skill set focused upon conducting fact driven investigations.

All Training Programs are grounded in proven and accepted methods of criminal investigation. Upon successful completion, participants are awarded Certificates of Training. The Training Programs may be taken individually or as a series in pursuit of a CDITC Investigator Certification.
